A RUDDY SHELDUCK SHOT IN PANOLA COUNTY, MISSISSIPPI

W. Marvin Davis

308 Lewis Lane
Oxford, Mississippi 38655

On the morning of 8 January 1989, James Simmerman of Como, Mississippi, was waterfowl hunting with a companion at a "beaver pond" on Nelson Creek in northwestern Panola County. This tributary of the Little Tallahatchie River enters Sardis Lake about four miles above Sardis Dam. The hunters saw a single duck fly over their goose and duck decoys, circling twice before being shot by Simmerman. The bird called as it flew in a manner described as goose-like honking sounds. It was quickly noted to be of a species that they could not identify.

The duck was retrieved and later taken to taxidermist Tony Coy, of Batesville, Mississippi, who was also unable to identify it. Mr. Coy kept the frozen bird until 6 February, when he took it to the University of Mississippi Department of Biology, where Professor Paul Lago used Peterson (1980) and other references to identify it as a male Ruddy Shelduck (*Tadorna ferruginea*). I examined the bird and concurred in the identification.

The duck was obviously healthy, full-bodied and heavy, and with plumage in excellent condition. There was no evidence of wear on wing or tail feathers. The bird had no leg band, nor signs of having worn one. The black feet and legs were unmarked, showing no scars, sores, or calloused spots that might suggest captivity. Thus, in behavior and appearance there was nothing to distinguish the duck from a free-living, wild individual.

The Ruddy Shelduck is a Eurasian species that breeds in areas around the Mediterranean and eastward from Asia Minor through Afghanistan to Tibet. The American Ornithologists' Union (1983:780) notes that it "has been recorded casually as a stray in western Greenland" and that several records in the interior of North America (including Kentucky and Illinois) "most likely pertain to escapes from captivity." The Ruddy Shelduck is among those species of exotic waterfowl "common in zoos and private collections" in the United States (National Geographic Society 1987:90).

Photographs of the specimen taken prior to its being mounted have been deposited in the avian collections of the Mississippi Museum of Natural Science and the Department of Biological Sciences at Mississippi State University.

Mississippi State, MS 39762

We spotted a Sabine's Gull (*Xema sabini*) at about 0900 on 9 August 1988 as it landed on the beach at Clermont Harbor, Hancock County, Mississippi. We watched it for about 20 minutes as it stood or lay on the sand, from as close as 8 m through 7X and 8X binoculars and 22X spotting scopes. Photographs (color slides and color and black-and-white prints) were taken of the bird. Heavy overcast provided mediocre light. Strong winds were from the south; the temperature was about 78 degrees F. Tropical Storm Beryl was moving ashore west of New Orleans.

We immediately identified the bird as a Sabine's Gull due to its wing pattern. It was in first-summer plumage: the dark gray hood was finely speckled white, the black collar was splotchy and incomplete at the throat and nape, the tail was completely white, the white primary tips were small, and the bill was entirely dark. All of these marks may be seen in the photographs.

We ruled out immature Little (*Larus minutus*) and Ross' (*Rhodostethis rosea*) gulls and immature Black-legged Kittiwake (*Rissa tridactyla*) by the lack of black on the inner wing and tail and the presence of a hood (National Geographic Society 1987).

We first noticed the Sabine's Gull as it was landing and did not see the direction from which it came. It stood among a group of about 30 Larids including: Laughing Gull (*L. atricilla*), Gull-billed (*Sterna nilotica*), Caspian (*S. caspia*), Sandwich (*S. sandvicensis*), Common (*S. hirundo*), Forster's (*S. forsteri*), Least (*S. antillarum*), and Black (*Chlidonias niger*) terns, and Black

Skimmers (*Rynchops niger*). The Sabine's Gull preened, and twice lay upon the sand, although it did not tuck its head. The Sabine's Gull was less skittish than the other larids, not flying when Hodges approached to within 8 m. It once flew about 1 meter, returning to the beach. After we returned to our car, the bird left with a group of skimmers and was last seen flying westward along the beach. Hodges had previously seen the species in Texas and the Pacific Ocean, and Toups had seen it in coastal California.

This is the second record of Sabine's Gull for the state. An immature bird was sighted on 14 July 1964, 3 miles WNW of Ship Island, Harrison County (Toups and Jackson 1987). Duncan and Havard (1980) list 12 other records for the northern Gulf coast, all from Texas, Louisiana, and Alabama. Sabine's Gull breeds in the Arctic and winters at sea in the southern Atlantic and Pacific oceans (Harrison 1983).

Mississippi State, MS 39762

On 16 July 1989 we found a Gull-billed Tern (*Sterna nilotica*) in Lowndes County, Mississippi. At 0735 Schiefer spotted the bird as it flew by us; we were birding flooded fields of the Catalpa Creek floodplain along U.S. highway 82. We watched the bird intermittently for 15 minutes as it hawked for food over the fields. It was seen from as close as 10 m, from all sun angles, through 10X and 7 X binoculars and 22X and 25X spotting scopes. The tern was seen in both dark overcast and bright sunlight, although the sky was mostly cloudy. Strong winds were from the south and the temperature was about 75 degrees F.

We identified the medium- to large-sized tern almost immediately as a Gull-billed. The bird was white but for the mantle, wings, crown, and soft parts. The mantle and upperwings were a very pale gray except for a slight darkness on the outer primaries. This latter color may have been an impression caused by dark on the under surface showing through the wing. A dark gray bar on the trailing edge of the underwing tip was about 1 cm wide and on the outer primaries only. Schiefer noted a narrow dark strip on the leading edge of the outer primary tip. The wings were broad; tail short, deeply notched, and outer rectrices not elongated into streamers. The tail only extended beyond the feet about 2-3 lengths of the feet.

The deep black cap was immaculate and extended from the front over the eyes to the bottom of the nape. The bill was short for the tern's size, stout, and entirely black. The legs, feet, and eyes were also black.

The tern flew languidly over flooded fields, hawking (not diving for) insects with slow, shallow wingbeats. It usually flew at a height of about 10-15 m above ground, except when it flew low for prey. It successfully captured at least two prey items as we watched. It usually kept its head facing down while flying. The tern landed on mudflats as we were leaving. We could not relocate the bird later the same day.

Gull-billed Terns are very rare inland in the U.S. Of the four states bordering Mississippi, Louisiana and Alabama have inland

records of this species. The inland (*sensu lato*) Louisiana Gull-billed Tern was seen in the Baton Rouge area on 10 September 1965 (Lowery 1974). Farther inland was one at Marion, Alabama, on 17 May 1969 (Imhof 1976). Several Gull-billed Terns have been recorded inland in Texas (Oberholser 1974), and there is a record for Eufala National Wildlife Refuge, Georgia (LeGrand 1978). The present sighting is the first inland record for Mississippi.

**Birds Around the State:
December 1988-December 1989**

Compiled by Terence L. Schiefer

Department of Entomology
Mississippi State University
Mississippi State, Mississippi 39762

The following is a summary of noteworthy bird sightings in Mississippi for the period 1 December 1988 through 31 December 1989. The sequence of information in each account is: species, number, date, place, observer(s). Numbers of birds sighted are underlined. The significance of sightings is indicated by a letter in parentheses following a record. These letters are as follows: (A) = arrival date, (D) = departure date, (E) = early date, (L) = late date, (N) = unusually large number, (R) = species rare in area or at that season. Other abbreviations used include the following: ad = adult, CBC = Christmas Bird Count, Co. = County, Cos. = Counties, f = female/s, imm = immature/s, Is. = Island/s, juv = juvenile, m = male/s, max. = maximum, mi = mile/s, m.ob. = many observers, MSU = Mississippi State University, NMP = National Military Park, N.S. = National Seashore, NWR = National Wildlife Refuge, pl = plumage, PRM = Pascagoula River Marsh, Ref. = Refuge, Rd. = Road, S.L. = Sewage Lagoon, S.P. = State Park, sp. = species, St. = Street, subad = subadult, WMA = Wildlife Management Area. The list of sightings is followed by a key to observers' initials and a gazetteer of localities.

Contributions of records are welcome from anyone who makes observations of Mississippi birds. Only with the assistance of many individuals from throughout the state over a period of years can we come to understand the dynamics of the bird populations of Mississippi. Contributors should submit records on 3" x 5" cards or similar-sized slips of paper with the following information: species, number seen, date (including year), location (state, county and specific location), observer(s), and details and significance of observation. Very unusual records should be accompanied by full details including description of bird, details of observation, and explanation of how similar species were eliminated. While records are welcome at any time, those received by 15 March, 15 June, 15 August, and 15 December will be submitted with the seasonal report to American Birds as well as being considered for use in The Mississippi Kite. Please send all records to:

RED-THROATED LOON -- 1, 28 Dec.'88 & 14 Jan., Clermont Harbor, TH, HS, JT, PD (R); 1 in basic pl, 25 Mar., Petit Bois Is., CC, MF, AD (R)

COMMON LOON -- 14, 14 Jan., Sardis Dam, DD (N); 2, 28 Feb., Sardis Dam, GK (R); 3, 29 Mar., Oktibbeha & Noxubee Cos., TS (A); 8, 8 Apr., Oktibbeha Co. Lake, TS (N); 2, 5 May, Oktibbeha Co. Lake, TS (L); 1 in basic pl, 12-22 May, Sardis Dam Lower Lake, MD, GK (L); 2 in basic pl, 23 Jul., Mississippi Sound off West Ship Is., TS (R); 1 in basic pl, 14 Oct., Hancock Co., JT, MH (A)

PIED-BILLED GREBE -- 2 ad, 8 young, 29 May, PRM, MH (R)

HORNED GREBE -- 95, 12 Dec.'88, Sardis Dam, MD (N); 1, 5 Jan., Oktibbeha Co. Lake, TS (R); 1, 8 Jan., Laurel S.L., TS; 1, 29 Mar., Bluff Lake, Noxubee Co., TS (R)

EARED GREBE -- 1, 6 Dec.'88-1 Jan., Grenada S.L., MD, GK, m.ob. (R); 1, 12 Dec'88 & 4 Feb., Waveland S.L., JT, m.ob. (R); 3, 29 Jan., Laurel S.L., TS; 8 most in alternate pl, 25 Apr., 5 in alternate pl, 2 May, Seaman Rd. S.L., JT, PL, SF, m.ob. (N,L); 1, 24 Sep., Tupelo S.L., MH, TS (R); 1, 12 Oct., 2, 14-15 Oct., Waveland S.L., JT, GM (R); 8, 30 Nov., Seaman Rd. S.L., JT, m.ob.; 1, 2 Dec.'89, Grenada S.L., GK, SK, TS (R); 1, 23 Dec.'89, Sardis Dam, GK, SK (R)

SOOTY SHEARWATER -- 1, 27 Dec.'88, Ladner Pier, Waveland, JT (R, 2nd state record); 1, 22 Mar., Long Beach, GM, CC, MB, JP (R, 3rd state record)

NORTHERN GANNET -- 1-2, 27-28 Dec.'88, Ladner Pier, Waveland, JT; 150, 20-24 Mar., Harrison and Hancock Co. beaches, JT, CD, LJ, m.ob. (N); several, 28 Oct. & 18 Nov., offshore Mississippi, JT, m.ob.

AMERICAN WHITE PELICAN -- 48-80, 28 Dec.'88-28 Feb., Lakeshore, JT, m.ob. (N); 3-200, 1 Mar.-21 Apr., near Choctaw, NHe; 17, 29 Jul., PRM, JT, m.ob.; 10, 25 Sep., 3, 27-28 Sep., Sardis Waterfowl Ref., VT, GK (E); 40, 9 Oct., Hancock Co., JT, LK; 85, 9 Oct., Bolivar Co., NHe

BROWN PELICAN -- 12-22, 3 Dec.'88-28 Feb., Hancock Co., JT (N); 200, 4 Aug., Horn Is., CD, LJ, GM, JT (N); 65, 9 Aug., Pascagoula beach, LJ; 195, 25 Nov., Jackson Co. in Mississippi Sound and off barrier islands, MH, MN, PR (N)

DOUBLE-CRESTED CORMORANT -- 420, 17 Dec.'88, Noxubee NWR, Noxubee Co., TS, m.ob.; 70, 5 May, Oktibbeha Co. Lake, TS (N); 1 ad, 21 May, Tunica Co., MD, JW, GK, SK (L); 1, 23 May, Columbus S.L., TS, GW (L); 1, 8-9 Aug., Ocean Springs beach, MH (R); 200, 18 Nov.,

314, 25 Nov., Sardis Waterfowl Ref., MD, GK (N); 450, 25 Nov., Sardis Dam, MD (N)

ANHINGA -- 16 ad, 8 downy young, 31 Jul., Big Point cooling pond, JT, MH (N - 8 nests seen); 1 f, 11 Aug., Bluff Lake, Noxubee Co., TS, MD, MC, JBr (R); 1, 3 Nov., Waveland S.L., JT (R)

MAGNIFICENT FRIGATEBIRD -- 30, 27 Aug., West Ship Is., LJ (N); 1, 28 Oct. & 18 Nov., offshore Mississippi, JT, m.ob. (L); 1, 9 Nov., Biloxi Bay, Harrison Co., MH (L)

AMERICAN BITTERN -- 1, 30 Mar., PRM, GM, CC; 1, 1 Apr., Noxubee NWR, Oktibbeha Co., MH, TS; 1, 4-14 Oct., Kiln, CD, LJ (E)

LEAST BITTERN -- 1-3, 30 Apr.-11 May, Noxubee NWR, Noxubee & Winston Cos., MH, TS (R); 1 nearly grown downy young, 12 Aug, PRM, MH; 1, 16 Aug., Bluff Lake, Oktibbeha Co., TS (R); 1, 12 Nov., Jackson Marsh, JT (L)

GREAT EGRET -- 1, 11 Dec.'88, Oktibbeha Co. Lake, MH (D); 1, 10 Jan., Calhoun Co., GK, VT (R); 1, 23 Apr., Columbus S.L., TS; 1, 30 Apr., Noxubee NWR, Noxubee Co., MH, TS; 2, 10 Dec.'89, Grenada Lake, Calhoun Co., GK, SK, TS; 1, 11 & 17 Dec.'89, Sardis Waterfowl Ref., VT, GK; 1, 30 Dec.'89, Sardis Dam Lower Lake, SK, GK

SNOWY EGRET -- 1, 30 Apr., Columbus S.L., MH, TS (R); 1, 20 May, Tunica Co., MD (R); 1, 13 Oct., Sardis Waterfowl Ref., GK, VT (R,L)

LITTLE BLUE HERON -- 2, 31 Mar., Noxubee NWR, Noxubee Co., ADi (A); 1 ad, 30 Apr., Noxubee NWR, Winston Co., MH, TS (D); 1 imm, 7 Dec.'89, Oktibbeha Co. Lake, TS (L)

REDDISH EGRET -- 1, 14 Jan., Waveland, JT, PD, HS (R); 1, 20 Mar., Waveland, JT, CD, LJ (R); 1 imm, 17 Jul., Biloxi beach, JT (A on mainland); 3-7, Oct., 1, 30 Nov., coastal counties, JT

CATTLE EGRET -- 2-1, 5 & 12 Dec.'88, Washington Co., MH (L); 1, 8 Apr., MSU North Farm, TS, JM (A)

GREEN-BACKED HERON -- 1, 30 Mar., Oktibbeha Co., MH (A)

BLACK-CROWNED NIGHT-HERON -- 1 imm, 9 & 16 Aug., Bluff Lake, Noxubee & Oktibbeha Cos., TS (R); 1 ad, 20 Aug., Loakfoma Lake, TS (R); 1 imm, 1-14 Sep., Clear Creek Rd., Lafayette Co., GK, MD (R)

YELLOW-CROWNED NIGHT-HERON -- 1 ad, 15 Apr., Sardis Dam Clear Springs Nature Trail, MD, GK, SK (on nest); 2 imm, 19 Sep., Loakfoma Lake, TS (L)

WHITE IBIS -- 2 imm, 24 Jun., near Scott, NHe; 9 imm, 4 Jul., Noxubee NWR, Winston Co., MH (E)

GLOSSY IBIS -- 1 in alternate pl, 23-25 Mar., PRM, CC, SM, GM, JT, JP, m.ob. (R); 1, 25 Apr. Lakeshore, JT, PL, SF (R)

WHITE-FACED IBIS -- 1 ad, 13-18 Nov., PRM, CC, JP, m.ob. (R)

ROSEATE SPOONBILL -- 2, 1 Jul., Kiln, CE (R); 1-3, 25 Jul.-25 Aug., PRM, GM, SM, MH, JT, m.ob. (R); 2 imm, 5 Aug.-10 Sep., Noxubee NWR, Noxubee Co., TS, MC, m.ob. (R); 1, 16 Oct., Biloxi beach, JB (R)

WOOD STORK -- 3 imm, 24 Jun., near Scott, NHe; 2, 16 Jul., Lake Loakfoma, MC (A); 3, 28 Jul., Mississippi Sandhill Crane NWR, BO (R); 32-60, 8 & 10 Sep., near Scott, NHe; 1, 7 Oct., Kiln, LK (R); 1 imm, 22 Oct., Loakfoma Lake, TS (L)

FULVOUS WHISTLING-DUCK -- 1, 2 May, Kiln, JT, GM, CC, JP (R)

BLACK-BELLIED WHISTLING-DUCK -- 1, 20-25 May, near Arkabutla Lake, Tate Co., BBe, GK, SK, JW, MD, TS, MH (R)

TUNDRA SWAN -- 1, 12 Feb., Yazoo NWR, TS (R); 1, 31 Nov.-1 Dec.'89, Noxubee NWR, Noxubee Co., DR (R); 10 ad, 3 imm, 3 Dec.'89, 4 mi east-northeast of Sidon, TS, GK (R)

GREATER WHITE-FRONTED GOOSE -- 10, 6 Jan., Seaman Rd. S.L., MP, GM (R); 20, 3 Mar., Blocker's Bottom, TS (R,N); 219, 12 Mar., Quitman Co., GK, SK (N); 30-37, 12-13 Oct., Sardis Waterfowl Ref., GK, VT (E); 4, 1 Nov., Seaman Rd. S.L., JT, MM (R); 14, 31 Nov., Noxubee NWR, Noxubee Co., DR, TS (R)

SNOW GOOSE -- 100, 12 Dec.'88, Port Bienville, JT; 2000, 25 Feb., Choctaw, NHe; 60, 3 Mar., Blocker's Bottom, TS (N); 2 blue morph, 4 Oct., Long Beach, MP, LSh (A); 3 blue morph, 11 Oct., Seaman Rd. S.L., CD, LJ; 1 ad white morph, 18 Nov., 10 mi south of Horn Is., JT, m.ob.

ROSS' GOOSE -- 1, 15 Nov., 2 mi north of Abbeville, Lafayette Co., GK, VT (seen in flight with Snow Geese, 3rd State Record)

CANADA GOOSE -- 5, 29 Apr., Waveland beach, CC, JT (L); 12 small race, 23 Nov., MSU North Farm S.L., TS (R)

GREEN-WINGED TEAL -- 1, 26 Sep., Kiln, CC, JP, JT, m.ob. (A)

GREEN-WINGED "Common" TEAL -- 1 m, 13 Oct., Sardis Waterfowl Ref., GK, VT (R - sight record, first for state)

AMERICAN BLACK DUCK -- 2, 10-11 Jul., 1, 16 Jul., Catalpa Creek Bottoms, TS, MH (R); 1, 18 Oct., Seaman Rd. S.L., MH, CC (R)

MALLARD -- 2 broods of 16 & 10, 9 Apr., 5 broods of 11, 8, 8, 5 & 3, 23 Apr., Columbus S.L., TS; 1 brood of 11, 29 Apr., Starkville south S.L., TS

NORTHERN PINTAIL -- 1, 28 Sep., Lakeshore, JT, GM (E)

BLUE-WINGED TEAL -- 1, 9 May, Starkville south S.L., TS (D); 1 m, 11 Jul., Catalpa Creek Bottoms, TS (E)

NORTHERN SHOVELER -- 2, 20 Apr., Noxubee NWR, Winston Co., TS (L)

AMERICAN WIGEON -- 1 m, 17 Apr., Jackson Marsh, PD, LD, JT, CR (L); 1 f, 4 May, Columbus S.L., TS (L)

CANVASBACK -- 1-2, 13-26 Jan., Eupora S.L., TS; 1, 11 Feb., MSU North Farm S.L., TS; 2, 21 Mar., Oktibbeha Co., TS (L); 1, 11 Oct., Seaman Rd. S.L., CD, LJ (E); 2, 14 Oct., Kiln, JT, GO, DC, MH (E); 3, 24 Oct., near Choctaw, NHe

REDHEAD -- 1 f, 15 Dec.'88, Eupora S.L., TS (R); 1 m, 4 May, Columbus S.L., TS (L); 1, 20 Dec.'89, MSU North Farm S.L., TS (R)

RING-NECKED DUCK -- 1, 15 Apr., MSU North Farm S.L., TS, MH, LC, JR (D); 1, 16 Apr., Seaman Rd. S.L., MH, TS (L); 1 f, 25 Jul., Laurel S.L., TS (R)

GREATER SCAUP -- 1-3, 1-16 Dec.'88, Oktibbeha Co. Lake, TS, MH (R); 1, 17 Dec.'88-10 Jan., Grenada S.L., GK, SK, VT, MD (R); 1, 1 Jan., Water Valley S.L., GK, SK, VT, MD (R); 1 f, 3 Feb., Eupora S.L., TS (R); 11, 12-13 Feb., Ross Barnett Reservoir, Rankin Co., MHu, WT, SP (R); 3, 18-23 Mar., Oktibbeha Co. Lake, TS; 6, 2 Nov., Oktibbeha Co. Lake, TS; 1, 4 Nov., 4, 24 Nov., Grenada S.L., GK, MD (R); 2, 12 Nov., Bluff Lake, Noxubee Co., TS; 1 f, 24 Nov., Columbus S.L., TS

LESSER SCAUP -- 475, 21 Mar., Oktibbeha Co. Lake, TS (N); 1, 25 Jul., Laurel S.L., TS (R)

Scaup sp. -- 12,000, 20 Mar., Harrison Co. beaches, JT, CD, LJ (N)

OLDSQUAW -- 20, 15 Feb., Biloxi beach, JT, m.ob.; 1, 7-15 Nov., Waveland S.L., JT, m.ob. (R); 1 f in basic pl, 11-12 Nov., Columbus S.L., TS, JM, GK, MC, JBr (R); 1 f, 19 Nov., Grenada S.L., MD (R)

BLACK SCOTER -- 1 m, 23 Mar., Waveland beach, JT (R); 4, 25 Nov., Biloxi beach, JH, JaH (R); 15, 18 Dec.'89, Gulfport beach, TS (R); 9, 18 Dec.'89, Biloxi beach, TS (R)

SURF SCOTER -- 5, 24 Mar., Bellefontaine Beach, TS (R); 1, 27 Sep., Seaman Rd. S.L., CD (R); 1, 10-13 Nov., Seaman Rd. S.L., JT, m.ob. (R); 1 imm m, 12 & 23 Nov., Choctaw Lake, TS, GK (R); 3 f/imm, 23 Nov., Oktibbeha Co. Lake, TS (R); 1 f/imm, 23 Nov.-3 Dec.'89, Eupora S.L., TS, MC, GK (R); 1, 25 Nov., Biloxi beach, JH, JaH (R); 1 f/imm, 8-20 Dec.'89, Columbus S.L., TS (R); 3, 18 Dec.'89, Biloxi beach, TS (R)

WHITE-WINGED SCOTER -- 1 f/imm, 8 Dec.'88-5 Mar., Oktibbeha Co. Lake, TS, MH, MC, JBr (R); 1 f/imm, 16 Nov.-12 Dec.'89, Oktibbeha Co. Lake, TS, GK, MD (R)

COMMON GOLDENEYE -- 2 f, 1 Dec.'88, Eupora S.L., TS (one bird with yellow bill); 35+, 7 Jan., Pascagoula River, Jackson Co., JT, CD; 1 f, 22 Jan. & 11 Feb., Bluff Lake, Noxubee Co., TS (R); 2, 11 Feb., Starkville south S.L., TS (R); 2, 5 Mar., Oktibbeha Co. Lake, TS; 1, 16 Nov., Oktibbeha Co. Lake, TS (A); 6, 18 Nov., Sardis Dam, MD (E)

BUFFLEHEAD -- 100, 5 Mar., MSU North Farm S.L., TS (N); 1, 12 Apr., Starkville south S.L., TS (D); 3, 13 Apr., Bay Saint Louis, JT (L); 4, 7 Nov., Oktibbeha Co. Lake, TS (A)

HOODED MERGANSER -- 2 broods of 8 & 1, 20 Apr., Noxubee NWR, Winston Co., TS (Rare breeder); 6 imm, 4 Jul., Noxubee NWR, Winston Co., MH (R)

COMMON MERGANSER -- 1, 4-9 Mar., Gulf Islands N.S., CC, JP, SM (R); 1 f, 23-24 Nov., Eupora S.L., TS, MC, MD, GK (R)

RED-BREASTED MERGANSER -- 1, 1 Dec.'88, Oktibbeha Co. Lake, TS (D); 1, 8 Jan., Laurel S.L., TS; 1 m, 5 Mar., Oktibbeha Co. Lake, TS (A); 2, 30 Apr., Oktibbeha Co. Lake, MH, TS (L); 1 f, 12-20 May, Sardis Dam Lower Lake, MD, GK (L); 1 f, 4 Aug., Singing River Is., CD, LJ, GM, JT (R); 1, 12 Dec.'89, Oktibbeha Co. Lake, TS (L)
