This index has been compiled using standardized common species following the AOU Checklist of North American Birds. Where changes in common names have been introduced after the publication of certain volumes of the Mississippi Kite, the species are cross-referenced. It is an index to bird species and authors included in volumes 11-20 of The Mississippi Kite. Species groups that are often referred to by a common or Genus name (e.g., *Accipiter*, *Empidonax*, dowitcher sp.) are also included.
