THE MISSISSIPPI KITE

Application for membership in the Mississippi Ornithological Society may be made to the Membership Committee Chair (Gene Knight, 79 Hwy. 9 W., Oxford, MS 38655), or online (www.missbird.org). *The Mississippi Kite* is sent to all members not in arrears for dues. Send change of address, requests for back issues, and claims for undelivered or defective copies to the Membership Committee Chair.

Information for Authors

The Mississippi Kite publishes original articles that advance the study of birdlife in the state of Mississippi. Submission of articles describing species occurrence and distribution, descriptions of behaviors, notes on the identification of Mississippi birds, as well as scientific studies from all fields of ornithology are encouraged. All manuscripts, in either a paper copy or digital copy format, should be submitted to the editor.

COPY – Paper copy manuscripts should be typed and double-spaced throughout. Digital copy manuscripts should be prepared using 12 pt. Times New Roman font. If possible, please submit digital files in Microsoft Word. Handwritten manuscripts will also be accepted, but please contact the editor prior to submission. Scientific names should be italicized.

STYLE – For questions of style consult previous issues of *The Mississippi Kite*. Manuscripts should include a title, names and addresses of all authors, text, and where applicable, literature cited, tables, figures and figure legends. Number all pages in the upper right-hand corner. Avoid footnotes.

LITERATURE CITED – List all references cited in the text alphabetically by the author's last name in the Literature Cited section. Citations should conform to the style of a recent issue of *The Mississippi Kite*.

NOMENCLATURE – Common names of bird species should be capitalized. Provide the scientific name, italicized and in parentheses, at the first mention of each species. Nomenclature should follow the American Ornithologists' Union Check-list of North American Birds, 7th edition (1998) and the 42nd (2000) through 56th (2015) supplements.

TABLES – Tables should be formatted with the size of *The Mississippi Kite* in mind, and should be interpretable without reference to the text.

FIGURES – Figures should be appropriate for photoreproduction without retouching.

THE MISSISSIPPI KITE

The Mississippi Kite is a biannual periodical published by the Mississippi Ornithological Society to record and further the study of Mississippi birdlife.

**MISSISSIPPI BIRD RECORDS COMMITTEE
ANNUAL REPORT-2015**

Gene C. Knight
79 Hwy. 9 W.
Oxford, MS 38655

The Mississippi Bird Records Committee (MBRC) of the Mississippi Ornithological Society was created to produce and keep a field checklist of the bird species that occur in Mississippi. The MBRC requests and reviews documentation on any record of a MBRC Review List species which can be found at the end of this report or at the MOS website, www.missbird.org. This is the ninth report of the MBRC, and it covers Committee activities for 2015. Gene Knight is the Committee Chair and Philip Barbour, Ned Boyajian, Jason Hoeksema, and Nick Winstead serve as MBRC Members.

The MBRC reached a final decision on 20 records in 2015. Twenty records of 15 species were accepted. Six records were sent to the 2nd circulation process. Twenty-seven observers submitted documentation to the MBRC on these records that were reviewed by the Committee in 2015.

The information presented after each species is as follows (if known): species name, number of individuals, age and/or sex, date(s) of occurrence, location, county (in italics), and initials of the observer(s). When known, the initials of those who discovered the bird are in boldface but only if the discoverer(s) submitted supporting documentation. After each observer's initials, the type of documentation is given in parentheses. They are as follows: p = photograph; w = written documentation (includes full details about the record

with complete description); rc = record card (includes only pertinent facts about the record). The MBRC record number and Class of the record are given in brackets.

Accepted records fall into three classes. Class 1 records are documented by an accepted specimen, diagnostic photograph, or recording; Class 2 records are documented by accepted written documentation by two or more independent observers; Class 3 records are documented by accepted written documentation by a single observer. Where multiple observers are listed as having submitted written documentation for Class 3 records, only documentation from one of the observers was deemed acceptable by the Committee. Similarly, where photographs are listed as having been submitted for Class 2 or 3 records, the photograph was not considered diagnostic by the Committee, although the written documentation was acceptable.
