#### Bio of Adam Rohnke

I was born and raised in Rochester, New York (Western New York). I attended Finger Lakes Community College in Canandaigua, New York where I received an A.S. degree in Environmental Studies and an A.A.S. degree in Natural Resources Conservation in 2001. I then attended SUNY Environmental Science and Forestry in Syracuse, New York (associated with Syracuse University). I received a B.S. in Environmental Forest Biology with an emphasis on Wildlife Biology in 2003. In 2005, I received my M.S. degree from The Pennsylvania State University in Wildlife and Fisheries Science. My thesis research was on the Ecological Effects of Habitat Alteration and West Nile Virus on Songbird Populations in Central Pennsylvania. I'm a member of The Wildlife Society and past president of the Jackson Audubon Society. My current position is the Wildlife Extension Associate based out of the Central Mississippi Research and Extension Center in Raymond, Mississippi- a regional office for MSU. I'm charged with working for the Natural Resource Enterprises program which assists private landowners in MS and the southeast with sustainably managing their land for fee-based outdoor recreation opportunities. Other professional responsibilities include general wildlife management and urban wildlife education for youth and adults. I live in Clinton, MS with my Wife Angel with our chocolate lab Scout and her cat Bailey. Some of my interests and hobbies include bird watching, hunting, gardening, camping, traveling and most other sports.
