THE MISSISSIPPI KITE

Application for membership in the Mississippi Ornithological Society may be made to the treasurer. The Mississippi Kite is sent to all members not in arrears for dues. Send change of address, requests for back issues, and claims for undelivered or defective copies to the treasurer.

Information for Authors

The Mississippi Kite publishes original articles that advance the study of birdlife in the state of Mississippi. Submission of articles describing species occurrence and distribution, descriptions of behaviors, notes on the identification of Mississippi birds, as well as scientific studies from all fields of ornithology are encouraged. All manuscripts, in both a hard copy and digital copy format, should be submitted to the editor.

COPY – Paper manuscripts should be *typed, double-spaced* throughout, on high quality paper. Digital copy manuscripts should be prepared using 12 pt. Times New Roman font. If possible, please submit computer files in Microsoft Word although WordPerfect formats will be accepted. Handwritten manuscripts will also be accepted, but please contact the editor prior to submission. Scientific names should be *italicized*.

STYLE – For questions of style consult previous issues of *The Mississippi Kite*. Manuscripts should include a title page (including names and addresses of all authors), text (beginning on page 2), literature cited (if applicable), tables, figure legends (on a separate page), and figures. Number all pages (in the upper right-hand corner) through the tables. Avoid footnotes.

LITERATURE CITED – List all references cited in the text alphabetically by the author's last name in the Literature Cited section. Citations should conform to the style of a recent issue of *The Mississippi Kite*.

NOMENCLATURE - Common names of bird species should be capitalized. Provide the scientific name (*italicized*) at the first mention of each species. Nomenclature should follow the American Ornithologists' Union Checklist of North American Birds, 7th edition (1998) and the 42nd (2000) through 48th (2007) supplements.

TABLES – Tables should be formatted with the size of *The Mississippi Kite* in mind and should be interpretable without reference to the text.

FIGURES – Figures should be appropriate for photoreproduction without retouching.

THE MISSISSIPPI KITE

The Mississippi Kite is a biannual periodical published by the Mississippi Ornithological Society to record and further the study of Mississippi birdlife.

2008 MISSISSIPPI BIRD RECORDS COMMITTEE REPORT

Gene C. Knight
79 Hwy 9W
Oxford, MS 38655

The Mississippi Bird Records Committee (MBRC) of the Mississippi Ornithological Society was created to produce and keep a field checklist of the bird species that occur in Mississippi. The MBRC requests and reviews documentation on any record of a MBRC Review List Species which can be found at the end of this report or at the MOS Website at <http://www.msstate.edu/org/mos>. This is the second report of the MBRC and it covers committee activities from 2008-2009. There was no committee activity during the period from December 2004 up to February 2008. At that time Gene Knight replaced Paul Hamel as Committee Chair and Nick Winstead was elected as a new Committee Member. Philip Barbour, Ned Boyajian, and Stephen Dinsmore continued to serve as MBRC Members.

The MBRC reached a final decision on 41 records in 2008. Forty records of 27 species were accepted and 1 record was not accepted. Twenty-seven observers submitted documentation to the MBRC on these records that were reviewed by the Committee in 2008.

The information presented after each species is as follows: Species name, the number of individuals, the age or sex, date of occurrence, location, county in italics, and the initials of the observers. When known, the initials of those who discovered the bird are in boldface but only if the discoverers submitted supporting documentation. After the observers' initials, the type of documentation follows in parentheses. The MBRC Record number and Class of the record are given in brackets.

Accepted records fall into three classes. Class 1 records are documented by an accepted specimen, diagnostic photo, or recording; Class 2 records are documented by accepted written documentation by two or more independent observers; Class 3 records are documented by accepted written documentation by a single observer. Where multiple observers are listed as having submitted written documentation for Class 3 records, only documentation from one of the observers was deemed acceptable by the Committee. Similarly, where photographs are listed as having been submitted for Class 2 or 3 records, the photograph was not considered diagnostic by the Committee, although the written documentation was acceptable.

Abbreviations used in this report are as follows: NWR = National Wildlife Refuge, p = photographic documentation, SP = State Park, w = written documentation, WMA = Wildlife Management Area.

Willow Flycatcher (*Empidonax traillii*) 1 adult on 31 May 1996 at Panola-Quitman Floodway Levee, *Tallahatchie*, **FB**(w) [97-22]; 1 adult

on 21 May 2008 at Nanih Waiya WMA, *Neshoba*, JM(w), NW(w) [08-11]

Records Not Accepted (Class 4) are either records not accepted based on questionable identification (Class 4-1) or records where identification is accepted but the origin is questionable (Class 4-0). Rarely is a record not accepted due to the bird being misidentified. Non acceptance is due to poorly written documentation. Most of these reports are vague and incomplete, leaving out pertinent details and not properly eliminating similar species. These records may be valid, but the Committee has decided that the documentation submitted do not meet the standards required for inclusion in the historical database.

Records Not Accepted after Second Circulation

Glossy Ibis (*Plegadis falcinellus*) 4 adults on 18-25 April 2001 at Doyle Arm, Noxubee NWR, *Noxubee*, [01-15; Class 4-1]
