THE MISSISSIPPI KITE

Application for membership in the Mississippi Ornithological Society may be made to the treasurer. The Mississippi Kite is sent to all members not in arrears for dues. Send change of address, requests for back issues, and claims for undelivered or defective copies to the treasurer.

Information for Authors

The Mississippi Kite publishes original articles that advance the study of birdlife in the state of Mississippi. Submission of articles describing species occurrence and distribution, descriptions of behaviors, notes on the identification of Mississippi birds, as well as scientific studies from all fields of ornithology are encouraged. All manuscripts, in both a hard copy and digital copy format, should be submitted to the editor.

COPY – Paper manuscripts should be *typed, double-spaced* throughout, on high quality paper. Digital copy manuscripts should be prepared using 12 pt. Times New Roman font. If possible, please submit computer files in Microsoft Word although WordPerfect formats will be accepted. Handwritten manuscripts will also be accepted, but please contact the editor prior to submission. Scientific names should be *italicized*.

STYLE – For questions of style consult previous issues of *The Mississippi Kite*. Manuscripts should include a title page (including names and addresses of all authors), text (beginning on page 2), literature cited (if applicable), tables, figure legends (on a separate page), and figures. Number all pages (in the upper right-hand corner) through the tables. Avoid footnotes.

LITERATURE CITED – List all references cited in the text alphabetically by the author's last name in the Literature Cited section. Citations should conform to the style of a recent issue of *The Mississippi Kite*.

NOMENCLATURE - Common names of bird species should be capitalized. Provide the scientific name (*italicized*) at the first mention of each species. Nomenclature should follow the American Ornithologists' Union Checklist of North American Birds, 7th edition (1998) and the 42nd (2000) through 50th (2009) supplements.

TABLES – Tables should be formatted with the size of *The Mississippi Kite* in mind and should be interpretable without reference to the text.

FIGURES – Figures should be appropriate for photoreproduction without retouching.

THE MISSISSIPPI KITE

The Mississippi Kite is a biannual periodical published by the Mississippi Ornithological Society to record and further the study of Mississippi birdlife.

**BIRDS AROUND THE STATE:
JANUARY-DECEMBER 2008**

Compiled by Terence L. Schiefer

Department of Entomology

Mississippi State, Mississippi 39762-9775

The following is a summary of noteworthy bird sightings in Mississippi for the period 1 January through 31 December 2008. The sequence of information in each account is: species, number, date, place, observer(s), and significance. Numbers of birds sighted are underlined. The significance of sightings is indicated by letters in parentheses following a record. These letters are as follows: (A) = arrival date, (D) = departure date, (E) = early date, (L) = late date, (N) = unusually large number, (R) = species rare in area, (RS) = species rare in that season, (U) = species uncommon in area, (US) = species uncommon in that season. Other abbreviations used include the following: ad = adult; BBS = Breeding Bird Survey; Co. = County; Cos. = Counties; CR = County Road; f = female/s; Hwy. = Highway; imm = immature/s; juv = juvenile/s; m = male/s; max. = maximum; mi = mile/s; m.ob. = many observers; MSU = Mississippi State University; NERR = National Estuarine Research Reserve; NWR = National Wildlife Refuge; pl = plumage; pr = pair/s; Rd(s). = Road(s); S.L. = Sewage Lagoon; S.P. = State Park; WMA = Wildlife Management Area. The list of sightings is followed by a key to observers' initials and a gazetteer of localities.

Contributions of records are welcome from anyone who makes observations of Mississippi birds. Only with the assistance of many individuals from throughout the state over a period of years can we come to understand the dynamics of the bird populations of Mississippi. Contributors should submit records on

3" x 5" cards or similar-sized slips of paper with one record per card including the following information: species, number seen, date (including year), location (state, county, and specific location), observer(s), and details and significance of the observation. Very unusual records should be accompanied by full details including description of bird, details of observation, and explanation of how similar species were eliminated. While records are welcome at any time, those received by 15 March, 15 June, 15 August, and 15 December will be submitted with the seasonal report to North American Birds (formerly known as Audubon Field Notes and American Birds) as well as being considered for use in The Mississippi Kite. Please send all records to:
